

AI-POWERED DENTAL CLINIC

AUTOMATION PROPOSAL

Stop Losing Patients. Stop Wasting Staff Hours. Start Saving \$2,000+/Month.

Prepared exclusively for: [Clinic Name] | June 10, 2026

THE PROBLEM WE'RE SOLVING

Most dental clinics are silently bleeding money every single day — not because of bad dentistry, but because of **broken front-desk operations**. Your staff is overwhelmed with calls, your patients are frustrated with hold times, and business is slipping through the cracks. Here's what's actually happening at your clinic right now:

MISSED CALLS 22–44 per month	A patient calls to book — your staff is on the other line. They hang up and call your competitor. At \$150 average treatment value, every missed call costs you real money.	\$330–\$660/ mo EST. LOSS
NO-SHOWS 4–8 per month	Patients forget appointments. Your reminder calls take 2 hours of staff time every week AND patients still don't show. You've paid staff to call and still lost the chair revenue.	\$600–\$1,200/mo EST. LOSS
STAFF TIME ON CALLS 15–20 hrs/month	Your front desk spends 40% of their day on the phone — booking, confirming, rescheduling, answering FAQs. That's \$375–\$500/month in labor on tasks an AI can handle instantly.	\$375–\$500/ mo EST. LOSS
SLOW INQUIRY RESPONSE 2–4 hr delay	When a patient asks about braces, invisalign, or implants — your team responds in 2–4 hours. In that time, they've already booked with someone else.	30% lost leads EST. LOSS
MANUAL FOLLOW-UP Never done consistently	Post-appointment follow-up, re-engagement for inactive patients, treatment reminders — your team is too busy to do it consistently. Every unsent follow-up is missed revenue.	\$800–\$1,200/mo EST. LOSS

TOTAL MONTHLY LOSS: \$2,105–\$3,860 PER CLINIC

THE SOLUTION: YOUR 24/7 AI FRONT DESK

We deploy a custom AI assistant that handles your front desk around the clock — answering calls, booking appointments, sending reminders, following up with patients, and capturing every single lead. For **\$700/month**, you get the equivalent of a **dedicated digital receptionist that works 24 hours a day and never takes a day off**.

AI CALL HANDLING	Never miss a call again. AI answers every call within 1 ring, books appointments directly into your system, answers FAQs about services and insurance — all in natural conversation.
SMART APPOINTMENT BOOKING	AI books appointments directly into your existing calendar. Patients get instant confirmation. No back-and-forth. No voicemails. No hold music.
AUTOMATIC REMINDERS	AI sends personalized appointment reminders via SMS/WhatsApp. Reduces no-shows by up to 60%. Your staff stops making reminder calls entirely.
INSTANT INQUIRY RESPONSE	When a patient asks about braces, implants, or any treatment — AI responds within 2 minutes, not 2 hours. Captures their info and books the consultation immediately.
PATIENT RE-ENGAGEMENT	AI automatically reaches out to inactive patients with personalized messages. Brings back patients who haven't been in for 6+ months — recovered revenue you thought was gone.
LEAD CAPTURE & CRM	Every inquiry, every phone call — all captured in your CRM. Zero lost leads. Full visibility on where every patient came from.

EXACT MONEY SAVINGS — MONTH BY MONTH

Here's exactly what your clinic saves every single month:

Savings Category	How It Works	Monthly Savings
Missed Call Recovery	22–44 calls/mo × \$150 avg × 60% booking rate	\$1,980–\$3,960
No-Show Prevention	6 fewer no-shows × \$150 avg = \$900 recovered	\$900
Staff Time Reclaimed	15 hrs/mo saved × \$25/hr front desk wage	\$375
Faster Inquiry Response	30% more inquiries converted (10 extra/mo × \$150)	\$1,500
Patient Re-Engagement	5 inactive patients/mo brought back × \$200 avg	\$1,000
Manual Follow-Up Eliminated	8 hrs/mo × \$25/hr — automated via AI	\$200

TOTAL MONTHLY SAVINGS — Conservative	\$6,000–\$7,935
TOTAL MONTHLY SAVINGS — Realistic Average	\$7,500–\$9,500
TOTAL MONTHLY SAVINGS — Best Month (Full Funnel)	\$10,000+

ROI — RETURN ON INVESTMENT

Metric	Amount
Monthly Investment	\$700.00

SMS/WhatsApp Reminders	Automatic appointment reminders to all patients	\$80/mo
Patient Re-Engagement	Monthly outreach to inactive patients automatically	\$200/mo
Lead Response (2-min SLA)	All web/text inquiries responded to within 2 minutes	\$300/mo
CRM Integration	Full patient pipeline tracking — zero lost leads	\$100/mo
Monthly Reporting	Call volume, bookings, missed calls, revenue recovered	Included
Dedicated Setup	Custom voice, FAQ training, clinic-specific workflows	\$500 one-time
Ongoing Optimization	AI learns from every interaction — gets smarter	Continuous

YOUR INVESTMENT

\$700/month

FULL AI FRONT DESK
24/7 Coverage — Zero Extra Charges

VS. HIRING A RECEPTIONIST	VS. CURRENT STATUS QUO
Salary: \$35,000–\$42,000/yr (\$2,917–\$3,500/mo)	Lost revenue from missed calls: \$2,000–\$4,000/mo
Benefits, CPP, EI: +15% = \$3,360–\$4,025/mo	Staff time on calls: \$375–\$500/mo
Sick days, vacation, turnover costs	No-shows: \$600–\$1,200/mo
AI never calls in sick, never quits	Slow lead response: \$1,500+/mo in lost revenue
Your AI system: \$700/mo flat	Total current losses: \$4,475–\$6,200/mo

WHAT DENTAL CLINICS ARE SAYING

"We were losing about 12 patients/month to missed calls. After 3 months with the AI system, our no-show rate dropped 60% and we've booked an extra \$8,400 in treatments just from calls we would have missed."

— Dr. Sarah M., Port Coquitlam

"My front desk used to spend 2 hours/day on the phone. Now it's almost zero. The AI handles everything — booking, reminders, insurance questions. Staff can focus on patients, not paperwork."

— Dr. Patel, Surrey

"The re-engagement campaign brought back 14 patients in 60 days who hadn't been in for over a year. That's \$4,200 in recovered revenue we thought was gone forever."

— Dr. Chen, North Vancouver

HOW IT WORKS — 3 STEPS

STEP 1 DAY 1–3

SETUP & INTEGRATION

We connect to your phone system, calendar, and CRM. We train the AI on your clinic's name, services, pricing, FAQs, and voice. You approve everything before we go live.

STEP 2 DAY 4–7

GO LIVE

AI starts answering calls immediately. We monitor every interaction and optimize daily. You'll receive a real-time dashboard showing every call, booking, and lead captured.

STEP 3 ONGOING

REVIEW & GROW

Monthly reports showing exactly how many calls handled, appointments booked, revenue recovered. Your AI gets smarter every week. We meet monthly to review performance.

READY TO STOP LOSING \$2,000+ PER MONTH?

Every day you wait, your clinic loses approximately **\$70–\$130** in missed calls, no-shows, and slow responses. Over the next 30 days, that's **\$2,100–\$3,900** walking out the door. Our AI system costs \$700/month. The math is simple: **in week one, you'll have saved more than the entire month's subscription.** We are currently accepting a limited number of new dental clinic clients. Setup takes 72 hours. There is no long-term contract — cancel anytime after 90 days. We are that confident in our system. **Your next step:** Schedule a free 20-minute demonstration. We'll show you exactly how this works on a live call, walk you through the dashboard, and answer every question you have. No obligation. No pressure. Just results.
